Course Description (from NC SCOS or VOCATS Blueprints):

Housing & Interiors I examines housing and interior decisions that individuals and families make based on their needs, the environment, and technology. Students will investigate such topics as housing options based; design fundamentals, backgrounds and furnishings; construction components, home safety and maintenance; & career development. This course is designed to introduce students to technical knowledge and skills in interior design, consumer issues, and family needs. Skills in mathematics, technology, and art are reinforced in this course. It is our goal that students will gain skills that will prepare them to make sound decisions when choosing post secondary training or entry level in the field of housing and interiors.
