

LETTERS

As a child, one of the hardest parts of your education was to learn the alphabet or letters. Once again you will be asked to "learn" the letters; however, these letters involve more than memorization. Writing a letter to various people will be one of the components of the Graduation Project.

Your letter to the judges will be completed during the second nine week grading period. This letter is very important. It will be counted on the deadline checklist and in the display portfolio.
